

Attorney Coaches Needed

for the

2018 Mock Trial Season!

Attorneys coaching a Georgia High School Mock Trial team are eligible to receive CLE credit if they spend a minimum of 10 hours in face-to-face coaching activities from the case release date (Oct 11, 2017) through the end of the State Finals tournament (March 3, 2018). To insure that students get the most out of this academic activity, it is important that at least one attorney coach be present for each scheduled team rehearsal and that teacher coaches are active in all aspects of team preparation. Most teams rehearse two to three times per week for 2 to 3 hours each session during the competition season. The team's coaching staff, teacher and attorney coaches together, will determine the team's rehearsal schedule and should take into account student activities and work schedules, in addition to attorney coach work schedules and the teacher sponsor's other duties.

The following mock trial teams have indicated a specific need for new or additional coaching assistance this season. **Interested attorneys should contact the person listed below to volunteer.** Teams without a coach cannot register until they have identified at least one attorney to assist them this season, so please don't delay in contacting the person listed below.
